

Re: Electrical System Rebuild for Residents on Bloor Street, Cedar Creek Drive and Rymal Road.

March 30, 2016

Dear Resident:

Please be advised that Enersource Hydro Mississauga will be making important investments in the electrical infrastructure that supplies power to your neighbourhood.

A rebuild of the electrical distribution system is scheduled to begin in May 2016 and will last approximately five months. Work will include the replacement and relocation of the following: old, decaying poles with new concrete poles, power lines, transformers and associated hardware. To meet current Electrical Safety Authority and Canadian Standards Association requirements, it may be necessary to add new poles and associated hardware to locations where none currently exist.

Trimming will be required on trees that are near our electrical equipment. Trees will be pruned to ensure that a minimum three-year growth clearance and safe distance is maintained from the main power lines. Dead, defective and structurally weak branches may also require removal.

It is our intention to carry out this work with as little inconvenience to you as possible. However, during this period of construction, there may be some road access limitations while crews are working. Occasional power interruptions will also be required as crews transfer powerlines. Notification of any planned power interruptions will be delivered to you in advance.

For more information, and to view the project plans that illustrate where work will occur, please join us at our open house, as follows:

**Monday, April 18, 2016
Applewood Heights Secondary School - Cafeteria
945 Bloor Street East, Mississauga
6:30 p.m. - 8:00 p.m.
(Drop-in any time)**

If you have any questions before or during the course of this job, please contact Steve Stolarski, Supervisor of Overhead Construction at 905-283-4102.

Sincerely,

A handwritten signature in blue ink, appearing to read "L. Blondeau".

Laura Blondeau
Manager, Customer Outreach and Stakeholder Relations
