

Re: Electrical System Installation near the Winston Churchill Bus Rapid Transit System (BRT)

April 21, 2016

Dear Resident:

Please be advised that Enersource Hydro Mississauga will be making important investments in the electrical infrastructure that supplies power to your neighbourhood.

As part of the Metrolinx public safety strategy, Enersource has been asked to install 14 lighting poles to illuminate the parking lot that services the future Winston Churchill BRT. Metrolinx has informed Enersource that these lights will be equipped with shields to ensure lighting is directed toward the BRT facilities and not homeowners' properties. Each pole will be located on Metrolinx property, approximately four metres from the property line.

Work is scheduled to begin in late-April/early-May 2016 and will last approximately six weeks.

If you have any questions, please contact Rob Elliott, Construction Supervisor at 905-283-4037.

Sincerely,

A handwritten signature in blue ink, appearing to read "L. Blondeau".
