Enersource Hydro Mississauga Inc. has applied to the Ontario Energy Board to raise its electricity distribution rates effective January 1, 2017. If the application is approved, a typical residential customer of Enersource Hydro Mississauga Inc. would see an increase of approximately \$0.86 per month. Other customers, including businesses, may also be affected.

The requested rate increase is set using a formula previously approved by the Ontario Energy Board. The formula is tied to inflation and other factors intended to promote efficiency. The rate increase also includes Enersource Hydro Mississauga Inc.'s requests to address the expiry of a four year transitional accounting adjustment and to recover costs related to the connection of renewable generation.

THE ONTARIO ENERGY BOARD IS HOLDING A PUBLIC HEARING

The Ontario Energy Board (OEB) will hold a public hearing to consider Enersource's request. We will determine whether Enersource has used the applicable models and formulas as required by the OEB. At the end of this hearing, the OEB will decide what, if any, rate changes will be allowed.

The OEB is an independent and impartial public agency. We make decisions that serve the public interest. Our goal is to promote a financially viable and efficient energy sector that provides you with reliable energy services at a reasonable cost.
